INTRODUCTION

This 11-day program spans a 9-month period and has been created to develop the current and future drivers and Principals within the Buying Group. Through a structured program of self awareness, self development, business skills development, performance management and personal skills evolvment of the individuals involved, you will be able to develop leadership skills that enable you to deliver sustainable success in your business. The individuals who undertake this course will have been identified as present and future leaders, with capabilities to drive the business forward to structure and achieve effective business goals. These individuals will be expected to graduate from this program at the end of 9 months during which they will be exposed to an on-going review, evaluation and development activities to assess and help them further develop.

Delegate participation through fun and stimulating exercises include:

The Royal Navy Sinking Ship:

Spiders Web:

PROGRAM OUTLINE

At the end of this 9 month program, through its content and application, and through the desire and commitment of the individuals, the objectives we expect to achieve are:

Individual

- Improved and new business skills
- Expanded and new people handling and development skills
- Increased confidence in the company and in themselves
- Increased personal motivation
- Greater self-awareness
- Strong leadership skills and qualities
- The ability and desire to continue to invest their time and commitment
 - In their people
 - In their careers
 - In their business

For Business

- Enhanced business and leadership skills
- Effective and varied assessment of the individuals across multiple business disciplines
- Greater knowledge of the future business leaders, their strengths & weaknesses, their potential and their on-going training & development needs
- Greater chance of people retention
- Motivated and goal driven culture
- Improved strategic, creative and entrepreneurial skill base
